## Introduction

This manual provides, in an alphabetized format for each Illinois municipality,

- **taxable location codes** used to identify the city, town, village, or county for each sales location,
- **general merchandise rates** for figuring Retailers' Occupation Tax or Service Occupation Tax as reported on Form ST-1, Sales and Use Tax Return, and Form ST-2, Multiple-Site Form,
- **qualifying food, drug, and medical appliance\* rates** for figuring Retailers' Occupation Tax or Service Occupation Tax as reported on Form ST-1, Sales and Use Tax Return, and Form ST-2, Multiple-Site Form, and
- **vehicle rates** for titled or registered items\*\* ("titled or registered items" are referenced in this manual as "vehicles") for figuring Retailers' Occupation Tax or Use Tax as reported on Form ST-556, Sales Tax Transaction Return, or Form RUT-25, Use Tax Transaction Return. Please refer to the Reciprocal - Non-reciprocal Rate Reference Chart on Page 129 for "out-of-state" buyer rates.

Please note that several Illinois municipalities (listed under the heading "city/town/village") are located in more than one county. For example, the city of Aurora is located partially within the boundaries of DuPage, Kane, Kendall, and Will counties. Separate listings will appear for each portion of these multi-county municipalities. Some municipalities with identical or similar names are actually separate municipalities that are located in different counties. For example, the city of Wilmington is an incorporated municipality in Will County, whereas the village of Wilmington is an incorporated municipality in Greene County. For this reason, it is advisable to look at this manual carefully.

Location codes and corresponding tax rates for county governments are listed on Pages 93-97 of this manual. County sales tax rates apply when

- retail sales are made in an unincorporated area of a county.
- the Illinois address given for the titling or registration of a vehicle purchased outside Illinois is in an unincorporated area of a county.

The sales tax rates listed are combined rates and include state tax of 6.25 percent on general merchandise and 1 percent on qualifying food, drugs, and medical appliances. Also, depending upon the sales location, the rates may include combinations of one or more of the following locally imposed taxes collected by IDOR:

- mass transit tax
- water commission tax
- municipal home rule tax
- municipal non-home rule tax
- county home rule tax
- county public safety or transportation tax
- metro-east park and recreation district tax
- business district tax
- county school facility tax

Note: The sales tax rates listed in this manual are subject to change January 1 and July 1 of each year. See our web site for current tax rate information.

### Madison County

The Madison County Metro-East Mass Transit District includes some — but not all — townships in Madison County. Therefore, the general merchandise rate, the qualifying food, drugs, and medical appliances rate, and the vehicle rate for items reported on Form ST-556 depend upon the township in which the taxable transaction takes place. If the taxable transaction takes place outside the municipal limits, refer to this township list for the correct tax rate. For vehicles reported on Form RUT-25, the vehicle's registration address determines the rate. If the vehicle's registration address is outside the municipal limits, use this township list for the correct rate.

<p align="center"><b>Reciprocal - Non-Reciprocal Vehicle Tax Rate Chart as of April 2008</b></p>
--

Non-residents may not claim the “out-of-state” buyer exemption (Section 5, Box A of Form ST-556, Sales Tax Transaction Return) on purchases of motor vehicles or trailers that will be titled in a state that does not give Illinois residents an “out-of-state” buyer exemption on their purchases in that state of motor vehicles or trailers that will be titled in Illinois (i.e., there is no reciprocal exemption).

The chart below lists each state. It shows whether or not you must collect tax if your purchaser is from that state and, if so, the rate that you must use to compute tax due. Rates are subject to change. The information appearing below is current as of the date on this chart. To see if this information has been updated, please refer to our web site.
